Research Interest

Natural Language Processing, Machine Learning, AI Safety, Reasoning & Benchmarking
AI Interpretability & Reliability, Computational Social Science, AI for Social Good

Academic Appointment

Emory University — **Atlanta, Georgia, USA**
Tenure-track Assistant Professor of Computer Science — *September 2025–Present*

Brock University — **St. Catharines, Canada**
Adjunct Professor of Computer Science — *December 2025–Present*

Brock University — **St. Catharines, Canada**
Tenure-track Assistant Professor of Computer Science — *July 2021–August 2025*

SKEMA Business School — **Montreal, Canada**
Adjunct Professor of Computer Science — *November 2021–March 2023*

Mila - Quebec AI Institute — **Montreal, Canada**
Research Assistant — *September 2018–July 2021*

Wellcome - MRC Institute of Metabolic Science, Cambrige University — **Cambridge, England**
Research Intern — *May 2016 - August 2017*

Montreal Clinical Research Institute - IRCM — **Montreal, Canada**
Research Assistant — *September 2014–January 2017*

Department of Critical Care, McGill University Health Centre — **Montreal, Canada**
Research Assistant — *September 2013–September 2014*

Education

McGill University — **January 2017–July 2021**
PhD in Computer Science
Advisor: Jackie Cheung

McGill University — **September 2014–January 2017**
MSc in Computer Science
Advisor: Joelle Pineau

McGill University — **September 2010–May 2014**
BSc in Joint Physics & Computer Science

Award and Nomination

2025: Coling 2025 Best Dataset Paper Award **[Details]**

2024:
- EMNLP 2024 Social Impact Paper Award **[Details]**
- Keynote Address, Graduation Convocation Ceremony, Brock University **[Details]**
- 2024-2025 Faculty of Math and Sciences Teaching Award, Brock University, $2,500. **[Details]**

2023: Faculty of Mathematics and Science Workload Release (2024-2025), Brock University, Half-course release for outstanding research, teaching, and service (5 granted annually per faculty)

2021: Oral Presentation at ACL 2021. **[Video]**

2020: Oral Presentation at Coling 2020

2019: Oral Presentation at EMNLP 2019

2018: Best Paper Award–NAACL SRW 2018. **[Details]**

2015: McGill University Graduate Excellence Award, $4,000

2013: William Dawson Undergraduate Excellence Award, $2,000

Research Grant + Fellowships

2024: Mitacs Globalink Research Internship Program (3 international students). **[Details]**

2023: New Frontiers in Research Fund (NFRF) 2022 Exploration Grant, $249,044. **[Details]**

2022: Natural Sciences and Engineering Research Council of Canada's (NSERC) Discovery Launch Supplement, $12,500. **[Details]**

2022: NSERC's 2022 Discovery Grant, $125,000. **[Details]**

2021: Brock University Startup Grant, $85,000.

2018: NSERC Canada Graduate Scholarshnp - PhD Program, $63,000

2018: The Fonds de recherche du Québec Nature et technologies - PhD Scholarship, $46,666

2015–2017: Fonds de Recherche Santé Quebec (FRSQ) Master's Scholarship, $15,000 (each year)

2015: NSERC Canada Graduate Scholarships-Master's Program, $17,500

**Note: In Canada, supervisors typically contribute CAD $5,000-$10,000 annually for Master's students and CAD $10,000-$20,000 for PhD students from their grants. Universities and external agencies provide additional funding.*

Research Collaboration (Selected)

Institutional

The School of Interactive Computing **May 2024 - Present**
Georgia Institute of Technology
Research involves prompt engineering and benchmarking of LLMs on complex, unsolved tasks in natural language processing.

- **Publication (COLM 2025):** The World According to LLMs: How Geographic Origin Influences LLMs' Entity Deduction Capabilities.

The MIT Center for Constructive Communication **Sep. 2022 - Present**
Massachusetts Institute of Technology
Exploring novel interpretability & safety methods for LLMs, including protocol development for evaluating consistency in debiasing effectiveness and the examination of confidence-probability alignment.

- **Publication 1 (ACL 2024):** Confidence Under the Hood: An Investigation into the Confidence-Probability Alignment in Large Language Models
- **Publication 2 (ACL Findings 2023):** Debiasing should be Good and Bad: Measuring the Consistency of Debiasing Techniques in Language Models

Montreal Institute of Learning Algorithms (Mila) **January 2022 - June 2024**
Development of EvoGrad, a dynamic dataset creation platform for the Winograd Schema Challenge, incorporating human-in-the-loop methodologies to address model stability.

- **Publication (Coling 2024):** EvoGrad: A Dynamic Take on the Winograd Schema Challenge with Human Adversaries

MRC Institute of Metabolic Science
Cambridge University **May 2016 - August 2017**
Collaboration with Dr. Roman Hovorka's team on studying behavioral patterns and glucose control during hybrid closed-loop therapy in type 1 diabetes.

- **Publication:** Behavioral Patterns and Associations with Glucose Control During 12-Week Randomized Free-Living Clinical Trial of Day and Night Hybrid Closed-Loop Insulin Delivery in Adults with Type 1 Diabetes

Industrial

Microsoft Research **Jan 2017 - July 2021**
Research on AI-driven approaches for natural language understanding, including the development and evaluation of methods for , the Winograd Schema Challenge and related tasks.

- **Publication 1 (ACL-IJCNLP 2021):** ADEPT: An Adjective-Dependent Plausibility Task
- **Publication 2 (COLING 2020):** An Analysis of Dataset Overlap on Winograd-Style Tasks
- **Publication 3 (ACL 2019):** The KnowRef Coreference Corpus: Removing Gender and Number Cues for Difficult Pronominal Anaphora Resolution
- **Publication 4 (EMNLP 2018):** A Knowledge Hunting Framework for Common Sense Reasoning
- **Publication 5 (NAACL-HLT SRW 2018 – Best Paper Award):** A Generalized Knowledge Hunting Framework for the Winograd Schema Challenge

Teaching Experience

Computing, AI, Ethics, and Society (CS 312) **Emory University**
Ethical and societal implications of computing and AI, including privacy, disinformation, algorithmic bias, and fairness in technologies. *Fall 2025, Spring 2026*

Introduction to Natural Language Processing (COSC 4P84) **Brock University**
An advanced course covering algorithms and recent advances in NLP. *Fall 2024, Winter 2024*
New course introduced by me.

Essentials of Artificial Intelligence (COSC 1P71) **Brock University**
Overview of AI principles, ML models, and their real-world applications. *Winter 2025*
New course introduced by me.

Natural Language Processing (COSC 5P84) **Brock University**
Focuses on deep learning models for NLP and their application *Winter 2023, Winter 2025*
New course introduced by me.

Data Structures and Abstraction (COSC 1P03) **Brock University**
Programming and problem-solving using high-level languages, data structures such as arrays and linked lists, and abstraction. *Winter 2024, Fall 2023, Winter 2023, Winter 2022*

Internet Technologies (COSC 2P89) **Brock University**
The essential technologies and protocols for web and internet development *Fall 2023, Fall 2022, Fall 2021*

Programming Languages (COSC 2P05) **Brock University**
Examination of various programming paradigms and their implications. *Winter 2022*

Academic Service

Senior Area Chair

2026:
- EMNLP 2026 (Area: Resources and Evaluation)
- ACL 2026 (Area: Resources and Evaluation)

2025:
- EMNLP 2025 (Area: Resources and Evaluation)
- ARR ACL 2025

Area Chair

2026:
- COLM 2026

2025:
- EACL 2026 (ARR October 2025)
- AACL 2025 (ARR July 2025)
- ACL 2025 (ARR December 2024 & Feburary 2025)
- NAACL 2025 (ARR October 2024)

2024:
- August ACL Rolling Review (ARR), 8 papers
- EMNLP 2024 (ARR June 2024), 8 papers

Grant Reviewer

2024:
- Alliance Grants - Mitacs Accelerate (1 grant)
- New Frontiers in Research Fund (NFRF) Exploration Track (9 grants)

Conference Reviewer

2025: COLM 2025, 3 papers

2024:
- Coling 2025, 3 papers
- April 2024 ACL Rolling Review (ARR), 3 papers
- The 1st Conference on Language modeling (COLM 2024), 3 papers
- ACL 2024 (ARR), 5 papers

2023:
- EACL 2023 (ARR), 3 papers
- NAACL 2023 (ARR), 5 papers

2021: ACL 2021, 3 papers.

2019: ACL SRW 2019, 3 papers.

Co-organizer

2019: EMNLP-IJCNLP 2019 Workshop on Commonsense Inference in Natural Language Processing Program Committee (PC) member

Professional Experience

Emory University **August 2025 – Present**
Director and Founder, Emory Language & Intelligence (ELI) Lab

Department of Computer Science, Emory University **September 2025–Present**
Human Computer Interaction Faculty Search Committee Member

Brock University **July 2021–August 2025**
Director, Natural Language Processing Group

Brock University Professional and Continuing Studies **April 2024–Present**
Developer and Facilitator

- **C-Suite: What you need to know about AI for your business**
  – Half-day workshop for business leaders.
- **Exploring large language models: Beyond ChatGPT**
  – Half-day workshop on practical applications of LLMs.
- **AI Essentials** – Six-week micro-credential for professionals new to AI.

Department of Computer Science, Brock University **July 2024–Present**
Hardware/Software Planning Committee Chair

Department of Computer Science, Brock University **July 2024–Present**
Data Science BSc Steering Committee Member

Department of Computer Science, Brock University **July 2024–Present**
Undergraduate Thesis Program Coordinator

Department of Computer Science, Brock University **July 2024–Present**
Joint AI BSc + BA Artificial Intelligence Program Vice Chair

Brock University **June 2023–Present**
AI Advisory Committee Member

Faculty of Math and Sciences, Brock University **June 2023–Present**
Inclusion, Diversity, Equity, and Accessibility (IDEA) Committee Member

Department of Computer Science, Brock University **September 2023–July 2024**
Joint AI BSc + BA Artificial Intelligence Program Committee Member

Department of Computer Science, Brock University **July 2023–July 2024**
Curriculum Committee Member

Department of Computer Science, Brock University **July 2023**
AI-Day Co-organizer

Recent Scholarly Address

October 2025: Invited Speaker: "**Large Language Models for Cross-Temporal Research (XTempLLMs)**", 1st Workshop on Large Language Models for Cross-Temporal Research at the Conference on Language Modelling (COLM 2025), Montreal **[Details]**

January 2025: Research Talk:"**The Search for Artificial Intelligence: The Problem of "Progress"**, Michigan State University, Computer Science and Engineering Lecture Series **[Details]**

November 2024: Feature Presentation: "**In Search of Digital Truth: How Large Language Models are Shaping Our Reality (And How We are Shaping Theirs!)**", First Ontario Performing Arts Centre **[Details]**

November 2024: Research Talk: "**LLM^3: Applications, Alignment, and Analysis**", Brock University's Annual AI Day Event **[Details]**

March 2024: Colloquium Talk: "**Large Language Models: Society's Silent Mirrors**", Brock Faculty of Math and Science's Anthropocene Research Colloquium Series **[Details]**

November 2023: Expert Panelist: "**Language Models at Scale: Big Models, Bigger Questions**", Brock University's Annual AI Day Event **[Details]**

August 2023: Research Talk, AI integration seminar, SKEMA AI School for Business

April 2023: Research Talk: "**Navigating the Power and Pitfalls of Pretrained Language Models in the Prompting Era**", MIT Media Lab

October 2022: Keynote Talk: "Role of Basic Sciences for Sustainable Development", COMSTECH - OIC Standing Committee on Scientific and Technological Cooperation **[Details]**

July 2022: Research Talk, AI integration seminar, SKEMA AI School for Business

May 2022: Masterclass: "**Generalizable, Ethical, and Interpretable Natural Language Processing: Science or Science Fiction?**", SKEMA AI School for Business **[Details]** **[Video]**

October 2021: Research talk: "**Towards Interpretable, Ethical, and Generalizable NLP Models**", Graduate Seminar COMP-5111, Lakehead University **[Details]**

December 2020: Oral presentation, 28th International Conference on Computational Linguistics (COLING)

July 2019: Oral presentation, 57th Annual Meeting of the Association for Computational Linguistics (ACL)

October 2019: Keynote speaker, Annual Microsoft Research and Mila Collaborative Research Workshop

June 2018: Oral presentation (awarded **best paper**), 2018 Conference of the North American Chapter of the Association for Computational Linguistics: Student Research Workshop **[Video]**

2017 – 2020: Guest lectures, Artificial Intelligence & Machine Learning courses, McGill University:

- January 2020 & April 2019: Search Algorithms, Introduction to Artificial Intelligence
- October 2017: A brief survey of methods for feature construction and selection, Applied Machine Learning

2017 – 2018: Invited talks, McGill University's Reasoning and Learning Lab's Computational Linguistics Meetings:

- August 2018: A Simple Approach for Common-Sense Reasoning
- March 2018: Tackling Common-Sense Reasoning Problems in NLP
- January 2018: Literature Review on Recent Development in Authorship Identification, Text Summarization, and Common-Sense Reasoning
- November 2017: On-going Research: The Winograd Schema Challenge
- November 2017: Probabilistic Reasoning via Deep Learning: Neural Association Models

Broadcast/Media Interview

- October 2025: Interview with IBM Think on culture-aware language technologies
- September 2025: Featured in PC Gamer on cultural reasoning failures in AI **[Details]**
- September 2025: Featured in Ars Technica on AI and implicit social norms **[Details]**
- February 2025: AI trained on novels tracks how racist and sexist biases have evolved, New Scientist **[Details]**
- October 2024: Can Artificial Intelligence Be a Force for Social Good?, The Drive, NewsTalk 610 CKTB

Student Supervision

Primary Supervisor

- PhD Students
  - **Sadeen Alsabbagh**, Emory University (Incoming, Fall 2026)
  - **Abhya Reddy Ambati**, Emory University (Spring 2026 - Present)
  - **Winston Zeng**, Emory University (Spring 2026 - Present) (Co-supervised with Prof. Jinho Choi, on rotation)
- MSc Students
  - **Rajiv Chilla**, Emory University (Spring 2026 – Present)
  - **Tyler Mcdonald**, Brock University (Summer 2023 – Summer 2025, Undergraduate, *NSERC Undergraduate Student Research Awardee*, Fall 2025 – Present, MSc)
  - **Sangmitra Madhusudhan**, Brock University (Summer 2024 - Summer 2025, Undergraduate; Fall 2025-Present, MSc)
  - **Robert Morabito**, Brock University (2022-2023, Undergraduate; 2024-Present, MSc)
  - **Kaige Chen**, Brock University (Fall 2024 – Present)
  - **Nikta Gohari Sadr**, Brock University (Fall 2023 – Summer 2025, *Graduated*)
  - **Sarfaroz Yunusov**, Brock University (Fall 2023 – Summer 2025, , *Graduated*)
  - **Abhishek Kumar**, Brock University (Fall 2023 – Summer 2024, *Graduated*)
- Undergraduate Researchers
  - **Tom Suo**, Emory CS (Spring 2026 - Present)
  - **Charitra Viswanath**, Emory CS (Spring 2026 - Present)
  - **Aurora Wu**, Emory CS (Spring 2026 - Present)
  - **Liam Neild**, Emory CS (Spring 2026 - Present)
  - **Shuyang Yu**, Emory CS (Spring 2026 - Present)

- **Xiangbo Zhang**, Georgia Institute of Technology, Emory CS Intern (Fall 2025 – Present)
- **Phoebe Pan**, Emory CS, (Fall 2025 - Spring 2026)
- **Zihan Liang**, Emory CS (Fall 2025 - Spring 2026)
- **Harsh Lalai** (Summer 2024 - Fall 2025)
- **Skye Reid**, Brock University (Summer 2024)
- **QiQi Gao**, Brock University (Summer 2022 – Summer 2023)
- **Ghofrane Faidi** (Summer 2024)
- **Angel Loredo** (Summer 2024)

Graduate Thesis Committee Member

- **Brendan Park**, MSc, Brock University (2025)
  - Thesis: *Leveraging the Latent Space for Model Understanding and Optimization*
- **Tom Wallace**, MSc, Brock University (2025)
  - Thesis: *Optimization Strategies for Enhancing Resource Efficiency in Transformers & Large Language Models*
- **Abhishek Kumar**, MSc, Brock University (2024)
  - Thesis: *Towards Trustworthy AI: Investigating Bias and Confidence Alignment in Large Language Models*
- **Yage Zhang**, MSc, Brock University (2023)
  - Thesis: *Aligning Language Models Using Multi-Objective Deep Reinforcement Learning*
- **Amirmahdi Khosravi Tabrizi**, MSc, Brock University (2023)
  - Thesis: *Adaptive Logging system: A System Using Reinforcement Learning For Log Placement*
- **Maka Hu**, MSc, Brock University (2023)
  - Thesis: *Automatic Generation of Human Readable Proofs*
- **Cameron Andres**, MSc, Brock University (2022)
  - Thesis: *Artificial Intelligence for DNA/RNA Aptamer Drug Design*
- **Jordan Maslen**, MSc, Brock University (2021)
  - Thesis: *Mixed Media in Evolutionary Art*
- **Pawel Jocko**, MSc, Brock University (2021)
  - Thesis: *Multi-Guide Particle Swarm Optimisation for Dynamic Multi-objective Optimisation Problems*

Graduate Thesis External Examiner

- **Madeline Janecek**, MSc, Brock University (December 2024)
  - Thesis: *Execution Trace Reconstruction Using Diffusion-Based Generative Models*
- **Jessica Graham**, MSc, Brock University (May 2024)
  - Thesis: *Edge Communication Efficiency with GNNs in the Internet of Vehicles*
- **Tristan Navikevicius**, MSc, Brock University (January 2024)
  - Thesis: *Generating Models of Human Gait in Patients with Parkinson's Disease*
- **Derek Hon**, MSc, Brock University (February 2023)
  - Thesis: *Distributed MAP-Elites and its Application in Evolutionary Design*
- **Mohammad Adib Khan**, MSc, Brock University (February 2023)
  - Thesis: *Time-Series Trend-Based Multi-Level Adaptive Tracing*
- **Jeremy Blanchard**, MSc, Brock University (January 2023)
  - Thesis: *Time-Series Trend-Based Multi-Level Adaptive Tracing*

Intellectual Property

- **Humanelike** (Registered 2022)
  - *AI & Ethics Consultation Service*
- **Fava – Discover, Match, Trade** (Registered 2021)
  - *Social trading application*
- **Physical/Chemical Acid Base Calculator** (iPhone Application, Registered 2014)
  - *A practical physical-chemical acid base calculator based on the analysis of acid base in biological solutions*

Workshops and Other Contributions

1. McDonald, T. & **Emami, A.** Trace-of-Thought Prompting: Investigating Prompt-Based Knowledge Distillation Through Question Decomposition. In Proceedings of the 62nd Annual Meeting of the Association for Computational Linguistics (Student Research Workshop, August 2024) Bangkok, Thailand. Association for Computational Linguistics **(ACL 2024)**
2. Chen Gao, Q & **Emami, A.** The Turing Quest: Can Transformers Make Good NPCs?. In Proceedings of the 61st Annual Meeting of the Association for Computational Linguistics (Volume 4: Student Research Workshop, July 2023), pages 93–103, Toronto, Canada. Association for Computational Linguistics **(ACL 2023)**
3. **Emami, A.**, Abramson, D. A Critical Analysis of GitHub Copilot. In Free Software Foundation: Philosophical and Legal Questions around Copilot, 2022).
4. **Emami, A.**, Trischler, A., Suleman, K., & Cheung, J. C. K. (2018, June). A generalized knowledge hunting framework for the winograd schema challenge. In Proceedings of the 2018 Conference of the North American Chapter of the Association for Computational Linguistics: Student Research Workshop (pp. 25-31). **(NAACL 2018)**
5. **Emami, A.**, Trichelair, P., Trischler, A., Suleman, K., & Cheung, J. C. K (2018, December). On the Evaluation of Common-Sense Reasoning in Natural Language Understanding. In Proceedings of the 2018 Conference on Neural Information Processing Systems: Critiquing Current Trends in Machine Learning Workshop. **(NeurIPS 2018)**

Contributions to Published Textbooks

1. **Emami, A.** "Natural Language Processing: Current Methods and Challenges." Engineering Mathematics and Artificial Intelligence: Foundations, Methods, and Applications (2023): 261. (July 2023)

Preprints and Submitted Articles

1. McDonald, T. & **Emami, A.** WordPolo: Evaluating Language Model Reasoning Through Iterative Semantic Feedback. Under Review (3rd Conference on Language Modeling, COLM 2026).
2. Badshah, S., **Emami, A.**, & Sajjad, H. Judge, Retrieve, or Abstain: Uncertainty-Guided LLM Judging with Provable Risk Guarantees. Under Review (3rd Conference on Language Modeling, COLM 2026).
3. Badshah, S., **Emami, A.**, & Sajjad, H. SCOPE: Selective Conformal Optimized Pairwise LLM Judging. Under Review (Forty-third International Conference on Machine Learning, ICML 2026)
4. Gohari Sadr, N., Madhusudan, S., Asgari, A., Sajjad, H., Seyyed-Kalantari, L., & **Emami, A.** ZIP: Quantifying Which Words Matter in Zero-Shot Instructional Prompts. Submitted (The 15th Joint Conference on Lexical and Computational Semantics, *SEM 2026).
5. **Emami, A.**, Abramson, D. An Application of Pseudo-Log-Likelihoods to Natural Language Scoring. arXiv preprint arXiv:2201.09377 (2022).
